ABOUT THE PROGRAM

Information and Communications Technologies (ICT) field is a widely established area of study in response to the needs for the offering of a curriculum selectively drawn from the curricula of Telecommunications (TC), Computer Science, and Information Management (CSIM). With strong emphasis on communications aspects — rather than on the aggregation of hardware, software, networks, equipment and related industries — ICT recognizes the important role of information services and applications in the creation of a complete ICT infrastructure.

The ICT Program provides a broad perspective on the nature of technology, how to use and apply a variety of technologies, and the impact on self and society. Students gain knowledge and skills needed to effectively apply, use and manage technology when solving problems specifically related to information and communication.

PROGRAMS
► Doctor of Engineering
► Doctor of Philosophy
► Master of Engineering
► Master of Science
► Certificate
ELIGIBILITY REQUIREMENT
To be eligible for admission to the regular Master’s program, an applicant must:

- hold a Bachelor degree (normally from a four-year program), or its equivalent, in an appropriate field of study from an institution of good standing acceptable to AIT;
- have undergraduate grades significantly above average; the minimum cGPA requirement for admission to the Master’s Program is 2.75 or equivalent, at the Bachelor degree level;
- English Proficiency Requirement: AIT-EET:6 or IELTS-Academic:6 (writing 6) or TOEFL Paper: 550 (writing 59–61) or TOEFL CBT: 213 (writing 25–26); TOEFL IBT: 80 (writing 21–23);

For the Doctoral degree program, in addition to the above English eligibility requirements, an applicant must:

- have strong academic records (both undergraduate and graduate) and normally hold a four-year bachelor’s degree, and a Master’s degree, preferably with a combination of course and thesis work, from an institution of good standing, acceptable to AIT.
- The minimum cGPA requirement for admission to the doctoral program is 3.50 or equivalent, at the Master’s degree level.

PREFERRED BACKGROUND
MASTER PROGRAM
Undergraduate degree in Computer Science or Computer Engineering, communications, telecommunications, electrical engineering, electronics, applied mathematics/statistics and information systems.

DOCTORAL PROGRAM
Master degree in any of the above disciplines.
