

SPONSORED PROJECT

The School of Environment, Resources and Development (SERD)

1. Project name	Climate risk financing for agriculture sector in ASEAN
2. AIT Lead Faculty	Dr. Thi Phuoc Lai Nguyen
3. Short Descriptions	The project aims to analyze the risks and potentials identified in the preliminary assessment, devise various courses of action to avoid these risks and leverage the potentials, propose options for action for the project design, and categorize risks with the appropriate justification for the selected agriculture value chains in Indonesia, Thailand, and Vietnam.
4. Output/Social Impact	<ul style="list-style-type: none">• For the conservation of environment: identifying particular hazards (unintended harmful consequences) on people and/or environmental goods, as well as possibilities;• For climate protection: inventory and analysis of current greenhouse gas emissions in the sector;• Recommendations for courses of action for integrating environmental and/or climate aspects to reduce environmental risks, improve environmental quality, reduce climate risks, and foster energy efficiency.
5. Partners	
6. Donors	Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH
7. Project Duration	7 June 21 – 30 June 2022
8. Total grant amount	THB 124,798
9. SDG	2, 12, 13
