

# SPONSORED PROJECT

The School of Environment, Resources and Development (SERD)

1. Project name	<b>Gender Mainstreaming Guidelines for Regional Plastic Management</b>
2. AIT Lead Faculty	Prof. Kyoko Kusakabe and Dr. Joyee Chatterjee
3. Short Descriptions	The objective of the study is to develop and disseminate guidelines for mainstreaming gender in marine plastic management policies and actions.
4. Output/Social Impact	Based on the desk study and key informant interviews, a big integrated report was created. The research looked at the entire marine plastic commodity chain, reviewing current policies and analyzing potential gendered consequences at each stage of marine plastic production, consumption, and waste management.
5. Partners	CIRD, Cambodia; SEGRI, Myanmar; VASS, Vietnam; SODA, Laos
6. Donors	World Bank
7. Project Duration	September 2020 – June 2022
8. Total grant amount	THB 2,307,300
9. SDG	5, 14
