

Sponsored Project: Testing commercial products

1. Project name & Short title	Aflatoxin in Tilapia Feed (ATF)
2. AIT Lead Faculty	Dr. Ram C. Bhujel
3. Objective	To test whether Aflatoxin has any effects on tilapia growth and survival.
4. Short description	Aflatoxin is found in some feed ingredients such as corn, rice bran, etc. When they are used, animals may get sick or slow growth.
5. Outcomes /impacts	Aflatoxin-binding compounds were found to be beneficial in mitigating the effects of aflatoxin.
6. Partners	Private Company
7. Donors	Patent Co., Serbia
8. Project Duration	Dec. 15, 2020 – December 31, 2021
9. Total grant amount	709,947 Baht
10. Please specify SDG s to which this project belongs	SDG1 – No poverty SDG2 – No hunger SDG3 – Health and wellbeing SDG8 – Create decent jobs SDG14 – Life under water
